

Product catalog for marketplace packaging

Companion to **Part 1 · Executive Partnership**. Finance Core first — designed for Azerbaijan legislation — then industry satellites, then strategic banking.

www.era-365.online

Confidential · Part 2 of 2 · 2026

Built for Azerbaijan — not adapted later

Q · WHY ERA 365?

A · Local legislation & operating reality first

Finance Core (and the stack around it) is designed around Azerbaijan rules: **VÖEN**, **AZN**, **FIN**, NAS-oriented accounting, local tax/trade practice, Asia/Baku dates — so Holding clients get a system that fits from day one.

WHAT THIS MEANS IN PRACTICE

- Legal entity & tax identity modeled for VÖEN orgs
- Citizen FIN + foreigner passport paths in MDM
- Finance tax / trade modules oriented to AZ compliance
- Data Hub: CBAR FX, VÖEN company directory, local banks
- Industry satellites post into Finance — one book for AZ auditors

Killer product — enterprise ERP for Azerbaijan

Accounting truth for every ERA 365 vertical. Source of GL, sales invoices, inventory, tax, and satellite postings.

GL

Ledger & COA

- NAS chart of accounts (template + org)
- Journals / mappings
- Satellite GL dispatch worker

DOCUMENTS

Sales & purchases

- Sales invoices — SoT for issued docs
- Purchases, PO, supplier receipts
- Counterparty CRM (accounting MDM)

STOCK

Inventory

- Warehouses, movements, audits
- Inventory settings
- Bridge to retail / F&B / auto parts

CASH

Bank & kassa

- Banking pro · cash desk
- Tier-gated cash ops

AZ

Tax & compliance

- Tax / trade for Azerbaijan legislation
- Local compliance / reporting path
- NAS-oriented chart of accounts

PEOPLE / ASSETS

HR · FA · Mfg

- HR & payroll
- Fixed assets registry
- Manufacturing MVP · IFRS mapping MVP

Why ERA 365: Finance Core is built for Azerbaijan legislation — VÖEN, AZN, FIN/NAS context, local tax & trade — not a foreign ERP adapted after the fact.

Orchestrator · MDM · Data Hub

ORCHESTRATOR

Control plane

- Org membership · SSO launcher
- Local staff login
- Billing · modules · add-ons
- Satellite event ingest

MDM

People master data

- globalPersonId in satellites
- PII ownership in MDM
- FIN + foreigner passport
- Access grants

DATA HUB

Reference DaaS

CBAR FX

VÖEN directory

Banks

Geo

Tax / customs

Calendars

Metered add-on · feeds Finance & satellites

Commercial packaging tip: sell **Foundation** = Orchestrator + MDM (+ Data Hub optional) together with Finance Core.

Why ERA 365: Control plane, MDM (FIN/passport) and Data Hub (CBAR / VÖEN) are built around Azerbaijan operating reality.

Hospitality satellite

COMMERCIAL MODULES

- hotel_core — FO, Front Cash, Night Audit
- hotel_housekeeping — Room Rack / HK
- hotel_distribution — Channel + Contracts
- hotel_guest_experience
- hotel_spa · transfers · banquets
- hotel_medical_sanatorium

CAPABILITIES

- Reservations, folio, night audit
- F&B room charge bridge
- Clinic / sanatorium bridge
- Yield / BAR · loyalty hook
- Room service QR · maintenance WO
- Bundles: City / Resort / Sanatorium

→ **Finance:** folio / posting handoff — hotel ops do not replace GL.

Why ERA 365: Sanatorium / hospitality ops + guest identity (FIN/passport via MDM) for Azerbaijan properties; folio posts to local Finance books.

Healthcare satellite

CORE

- Patient ref · practitioners · rooms
- Appointments · visit card
- Multi-room schedule / reschedule

CLINICAL

- Lab (+ critical flags)
- EHR / CPOE lite
- LIS HL7 import
- Telehealth + patient portal
- Insurance eligibility (Finance proxy)

BRIDGE

Sanatorium × Hotel

Guest / patient linkage for Nafta-style properties.
Price cache from Finance.

Why ERA 365: Clinical day ops linked to hotel guests when needed; pricing from Finance; person identity under AZ FIN/passport rules.

Food & beverage satellite

FLOOR

- Menu / outlet
- Floor + ticket
- Payments
- Split / void / discount

KITCHEN

- KDS
- Course timing
- Recipe depletion

OPS

- Shifts X/Z
- Delivery inbox
- Labor roster PIN

BRIDGE

Hotel room charge

Posts to PMS folio · recipe events
toward stock/Finance path

Why ERA 365: Outlet ops for AZ hospitality groups; room charge and recipe events feed the Finance / inventory boundary.

Retail & pharmacy satellite

POS

- Shift · checkout · presets (incl. pharmacy)
- Product lookup (Finance SKU cache)
- Promotions lite · customer at POS
- X-report · offline queue

GROWTH

- Fiscal KKM adapter
- Marketplace webhooks
- BOPIS / omnichannel OMS
- Mobile stock · replenishment · SRM

→ FINANCE

Sales & stock truth

Sale completed / shift closed events; inventory remains Finance-owned.

Why ERA 365: POS designed for AZ retail / pharmacy presets; fiscal path and stock truth stay aligned with Finance Core.

Sales CRM satellite

- Pipeline · lead card · create UI
- Visit log (+ geo) · next-contact · scoring / SLA
- Pipeline automation rules
- Live WhatsApp Business API (platform)
- Party profile (individual / legal, VÖEN)
- Prospect CSV/XLSX import
- Individual FIN → MDM

→ **FINANCE**

Convert → **counterparty**

Lead conversion creates / links Finance counterparty — sales system of engagement, Finance system of record for accounting parties.

Why ERA 365: Leads and legal parties with VÖEN; convert into Finance counterparties for Azerbaijan B2B sales.

Field & trade satellites

LOGISTICS

- Fleet · trips · waybill · POD (+ media)
- Fuel · customs hub · compliance alerts
- Multi-stop · driver mobile API · tracking token
- Rate matrix · COD clearing · hub cross-dock

AUTO SERVICE

- Vehicle card · work order · labor / parts lines
- Bay calendar · intake · shop-floor timer
- VIN catalogue · vehicle history · tool crib
- B2B parts PO → Finance

WHOLESALE

- B2B order · credit limit · pick/pack
- TTN delivery note · pick waves
- EDI / buyer API export

CONSTRUCTION

- Project / site · BOQ · material requisition
- Progress acts (KC) · daily log · punch list
- Gantt · equipment hours · CDE · timesheets
- Subcontractor claims

Why ERA 365: Waybill, TTN, acts and auto parts flow into Finance documents — same AZ enterprise books.

Cross-cutting commercial add-ons

Notifications

WA / email / SMS

Booking

Widgets (clinic, hotel, auto...)

Customer Portal

Orders, visits, docs

Payments

Pay-by-link, deposits

Loyalty

Promos, points

Custom domain

White-label

Delivery

Retail + logistics

Reference data

Data Hub metering SKU

Sold via Orchestrator catalog — not duplicated inside each satellite.

Why ERA 365: Platform add-ons billed via Orchestrator for AZ multi-org groups — same commercial fabric as Finance.

Bank Core & Bank satellite

Secondary to Finance Core. Separate regulated CBS for mid-market banks — not the hero SKU for Holding marketplace day one.

BANK CORE

Headless CBS engine

- Customer-money ledger (≠ Finance Core)
- ACID posting · CIF · EOD/EOM
- Product factory · audit

BANK SATELLITE

Ops UI

- Teller / back-office / risk UI
- Calls Bank Core API — no money in UI DB
- DBO channel — roadmap

STATUS

Certification track

MVP architecture implemented. Present as strategic enterprise line — not “switch on tomorrow” for Holding banks. Bank’s own corporate books still use Finance Core.

Why ERA 365: Separate CBAR-oriented CBS line for banks; bank’s own corporate books still use Finance Core under AZ enterprise rules.

Pilot packaging example

PARENT

Nafta · STANDALONE VÖEN

Hotel PMS + **Finance Core** + shared workforce

DEPARTMENTS

- F&B POS
- Clinic
- Pharmacy (Retail POS preset)

Marketplace SKU analog: “Sanatorium / Hospitality Suite” = Foundation + Finance Core + Hotel + Clinic + F&B (+ Retail optional).

Suggested marketplace packs

A · HERO

Finance Foundation

Orchestrator + MDM + Finance Core (+ Data Hub)

B

Hospitality Suite

A + Hotel + F&B (+ Clinic for sanatorium)

C

Retail Suite

A + Retail POS (+ Loyalty / Payments add-ons)

D

Trade / Field Suite

A + CRM + Logistics / Wholesale / Auto / Construction (pick)

Banking pack = separate enterprise SKU later (Bank Core + Bank satellite) — not mixed into day-one Holding retail marketplace shelf.

Quick glossary

Finance Core

Company books / GL — killer product

Satellite

Industry ops app under Orchestrator entitlements

Control plane

Orchestrator: identity, billing, events, MDM API

Department mode

Ops unit under parent legal entity (no second VÖEN)

VÖEN / FIN

Legal entity tax ID / citizen ID

Bank Core

Customer-money CBS — strategic, ≠ Finance Core

Two-deck pack for Pasha

PART 1

Executive Partnership

For directors / marketplace owners. Roles, Finance-first story, Nafta, 20% commercial, 30/60/90.

PART 2

This Product Catalog

For product / tech packaging. Modules & capabilities per satellite — no need to edit before internal forward.

ERA 365

Finance Core first. Verticals attach.

Built for Azerbaijan legislation. Questions on module packaging →
next workshop with Pasha Technologies.
