

ERA 365

Partnership proposal for Pasha Technologies

Enterprise SaaS for multi-industry operations. Killer product: **Finance Core** — built for Azerbaijan legislation. Hosting & marketplace (Pasha) × SaaS delivery (ERA 365).

Why this conversation

PAIN

- Industry ops on different vendors
- Accounting / tax aside or in legacy ERP
- Identity & subscriptions duplicated
- No coherent marketplace stack

ERA 365

One operating fabric

Finance Core as the accounting truth for every vertical. Orchestrator for identity & billing. Industry satellites for operations. Built for Azerbaijan (VÖEN, AZN, tax).

Clear split of roles

	PASHA TECHNOLOGIES	ERA 365
Infra	Hosting, SLAs, enterprise support	Architecture ready for managed hosting
GTM	Marketplace / Holding access	Packaged SKUs & vertical solutions
Success	L1/L2 ops support (as agreed)	L2/L3 product + SaaS delivery
Commercial	Referral / partner economics	SaaS · partner commission up to 20% , progressive

Principle: complementary, not competitive.

Platform at a glance

ERA 365 Orchestrator — Control Plane

Identity · SSO · Billing · Entitlements · MDM API · Event bus

★ ERA 365 Finance Core — killer product

GL · documents · inventory · tax · HR · satellite GL dispatch — the accounting truth for the whole ecosystem

MDM

People identity · globalPersonId

Data Hub

Reference DaaS (FX, VÖEN...)

Industry satellites

Hotel · Clinic · F&B · Retail · CRM · Logistics · Auto · Wholesale · Construction

Bank line (strategic)

Bank Core + satellite · certification track

The killer product

Every vertical posts into one enterprise ledger. Ops apps never invent a second set of books.

ACCOUNTING TRUTH

GL / NAS journals

Chart of accounts, journals, satellite event → GL worker

DOCUMENTS

Sales & purchases

Invoices as source of truth · PO · receipts

OPS

Inventory · cash · FA

Warehouses, bank & kassa, fixed assets

AZ

Tax & compliance

Azerbaijan legislation: VÖEN, NAS chart orientation, local tax / trade modules

PEOPLE

HR & payroll

Workforce payroll for the legal entity

BRIDGE

Satellite → Finance

Hotel folio, POS sales, clinic visits post into Finance — not parallel ledgers

Why ERA 365: Finance Core and the ecosystem are designed for Azerbaijan — VÖEN, AZN, FIN rules, Asia/Baku time, local tax & accounting practice — not a generic global ERP adapted later.

Control plane around Finance

ORCHESTRATOR

Identity & commercial backbone

SSO, local staff login, subscriptions, entitlements, event bus

MDM

One person identity

globalPersonId in satellites · PII in MDM · FIN + passport

DATA HUB

Reference DaaS

CBAR FX, VÖEN directory, banks, geo, tax reference

These services exist so Finance Core and industry apps scale under one commercial + identity model for marketplace clients.

Satellites feed Finance

HOSPITALITY

Hotel PMS

FO, folio → Finance

F&B

FnB POS

Floor / KDS / recipes

HEALTHCARE

Clinic

Visits, sanatorium day

RETAIL

Retail POS

POS, stock, fiscal

CRM

CRM

Leads → Finance CP

LOGISTICS

Logistics

Waybill, POD, COD

AUTO

Auto service

WO, parts → PO

WHOLESALE

Wholesale

TTN / B2B

CONSTRUCTION

Construction

Acts, claims

STRATEGIC

Bank line

Separate CBS · cert track

DETAIL

Full modules per product → separate Product Catalog deck

Part 2 PDF for technical / marketplace packaging review

How the system works

1. Access via Orchestrator entitlements (SSO / local staff)
2. Ops run in industry satellites
3. Accounting events land in **Finance Core**
4. MDM resolves people once across apps
5. Org modes: standalone VÖEN vs department under parent

Nafta pattern

One VÖEN parent + Hotel / F&B / Clinic / Pharmacy departments — same Finance Core books.

Active real-data pilot: Nafta

STACK

- Hotel PMS (Elektraweb migration path)
- Clinic + F&B as departments
- **Finance Core** as accounting path
- Holding-style org / workforce

Why it matters to Pasha

Multi-vertical ops + shared identity + **Finance Core** boundary on a real Azerbaijan property — active real-data pilot.

What Pasha Technologies can sell

01 · CORE

Finance Core + Foundation

Hero SKU · Orchestrator + MDM + Finance

02

Vertical packs

e.g. Hospitality = Hotel + F&B + Finance bridge

03

Platform add-ons

Notifications, booking, portal, payments, loyalty, Data Hub

04

Hosting SKU + Bank (strategic)

Pasha-managed runtime · Banking pack as later enterprise line

Partner economics

CAP

20%

Max partner / agency / referral commission

STRUCTURE

Progressive

Details & calculation base in term sheet — not locked here.

JOINT

Hosting + SaaS

Pasha hosting fee + ERA 365 subscription + optional upside

Security & compliance

- Org-scoped tenancy
- Service-token boundaries on internal APIs
- Audit on Finance mutations
- AZN · VÖEN · FIN · Asia/Baku display
- Ready for Pasha-managed enterprise hosting

Engagement plan

30

Days

NDA · tech workshop · hosting topology · SKU list

60

Days

Pilot on 1 vertical (+ Finance) · RACI · metrics

90

Days

Live on Pasha hosting · case review · term sheet

ERA 365

Ready for a structured partnership path

Next 90 min: RACI · marketplace SKUs · pilot candidate · commercial annex (20% cap).
